Basic Therapeutic Touch Training
for Healthcare Professionals

February 12, 2016 and February 19, 2016 • 8:30 am to 4:00 pm

What is Therapeutic Touch?
Therapeutic Touch® is a holistic, evidence-based complementary therapy that incorporates the intentional and compassionate use of universal energy to help people repattern their energy in the direction of health. Expected outcomes of a Therapeutic Touch treatment are decreased pain and anxiety, relaxation, comfort and peace.

Who should attend?
Anyone who has the desire to learn and the intention to help or heal, can learn Therapeutic Touch. Participants will be given a basic foundation in the theory, science and practice of Therapeutic Touch. Upon successful completion of this training participants will have enough knowledge to begin to use Therapeutic Touch both personally and professionally.

Program Objectives:
- Discuss the historical development of Therapeutic Touch
- Identify philosophical assumptions and theoretical frameworks underlying the practice of Therapeutic Touch
- Explore the inner process related to Therapeutic Touch
- List essential elements of Therapeutic Touch
- Demonstrate the successive phases of Therapeutic Touch
- Examine issues affecting the integration of Therapeutic Touch into practice
- Explain the scientific basis for Therapeutic Touch

Instructor: Ann Minor, RB-BC, HN-BC, CHPN, QTTT
Ann Minor is a holistic nurse and a Qualified Therapeutic Touch Teacher. She has been teaching Therapeutic Touch for over 25 years. She presented at the July 2015 LeadingAge Connecticut Dementia Council on “Complementary Therapies and Strategies and How to Integrate them into an Organization.”
